## MURDEROUS ATTACK IN SHANGHAI CITY

### GUNMEN OPEN FIRE ON MILLIONAIRE CHINESE

#### Victim Alleged To Belong To Puppet Association

#### RUSSIAN BODYGUARD KILLED

Shanghai, June 10.

The central district today was the scene of an attempted murder at the height of the noon hour homeward rush, when two Chinese gunmen tried to kill a millionaire Chinese mill-owner, Mr. Yiu Cho-sung, who is alleged to belong to the Japanese-sponsored Shanghai Chinese Association.

Mr. Yiu was stepping out of the Sassoon Arcade into Jinkee road accompanied by two Russian bodyguards when the gunmen made the attack. The millionaire was wounded in the shoulder and neck and taken to hospital where his condition was pronounced as critical.

A gun fight, in which about twenty shots were fired, then took place causing panic among the people in the neighbourhood who rushed into the Cathay Hotel for safety.

One of the Chinese gunmen fell lying in Jinkee Road in a pool of blood. Both the Russian bodyguards were also wounded.

Two Japanese members of the Settlement Police were engaged in the gun fight with the would-be assassins but neither of them were injured. (Reuters).

**RUSSIAN KILLED**

Hankow, June 10.

An attempt was made on the life of Mr. Yiu Cho-sung, an active member of the so-called Shanghai People's Association under Japanese sponsorship, by a group of gunmen in front of the Yokohama Specie Bank on the Bund in Shanghai at noon today.

Mr. Yiu, who was shot in the back, was rushed to the Paulin Hospital in the International Settlement for treatment.

One of Mr. Yiu's Russian armed guards was killed by the gunmen, while the other received severe wounds and is now in a critical condition in hospital.

A pedestrian was struck by a stray bullet and killed instantly.

Two suspects have been arrested by the police. (Central News).

### BOMB OUTRAGE IN WARSAW

#### Missile Meant for Priest

Warsaw, June 10.

A bomb outrage, which in many details recalls the murder of a parish priest of Lubon by Communists a few months ago, is reported from the village of Chynow in the province of Poznan here the bomb exploded on the roadside between the church and a house where the parish priest, Koniczynski, lives.

The bomb was undoubtedly destined for the priest who, however, escaped injury owing to a premature explosion. No details regarding the outrage have been revealed by the authorities so far who are anxious not to prejudice the pending investigation by leakage. Suspicion that Communists are responsible for the outrage would seem to be confirmed by a docillary search made by the police in the offices of a Marxist syndicate at Lazyn, near Zawiercie in southwest Poland.

Police are said to have found numerous documents of a compromising nature and have arrested persons, nine of whom have been detained in custody following their interrogation by the examining magistrate. (Transocean).

### EURASIA SERVICE FURTHER AUGMENTED

To meet the heavy demand for air travel between Hong Kong and Chengsha and Hankow, the local office of the Eurasia Aviation Corporation has announced that beginning from June 12, an additional plane will be placed on the daily Hong Kong-Hankow run.

Instead of one plane as hitherto, two planes will take off from the Kai Tak airport at seven o'clock every morning, so that more passengers for Changsha and Hankow may be accommodated, says Central News.

### DEVALUATION RUMOURS STIR GOLD MARKET

#### Sharp Demand From Continent

London, June 10.

After a period of unusual calm, the gold bullion market sprang to life today when under the influence of a sharp expansion of demand from Continental hoarders the turnover at fixing exceeded £1,000,000.

While the nervousness regarding the latest developments in Spain is one of the factors making for the renewed demand for gold, well-informed circles are of the opinion that the chief reason is to be found in the resurrection of rumours from New York that the United States Ambassador to London, Mr. Joseph P. Kennedy is shortly arriving from the United States with a tripartite devaluation agreement.

### China To Recall Berlin Envoy

Hankow, June 10.

The Chinese Ambassador in Berlin, Mr. Cheng Tien-feng, will be recalled shortly, it was authoritatively learned this evening. Much interest centres on the appointment of a successor.

Mr. Chen Chien, permanent Vice-Minister for Foreign Affairs, is considered the most likely candidate for the post, though it is reported that a prominent Chinese leader may be appointed in an attempt to put Sino-German friendship on a firmer basis.

Despite the recall of German advisers, Chinese circles expect that Germany will continue to sell war supplies to China. (Reuters).

### EARLY START SEEN FOR YUNNAN-BURMA RAILWAY

#### Work On Nanning-Dongdang Line Also To Be Hastened

Chuncking, June 10.

Construction of the railway joining Yunnan and Burma is to begin shortly, according to travellers arriving from Kunming, which is the terminus of the new line.

No information is available regarding the Burma terminus, but it is almost certain to be Myitkina, the terminus of the North Burma Railway from Mandalay, thus giving a through route from Rangoon to Kunming.

The new line will traverse some of the most difficult country in the world, including mountain ranges and the gorges of the Great Mekong and Salween Rivers. (Reuters).

### PARIS NEGOTIATIONS

Paris, June 10.

Despite the official denial issued a few days ago that the President of the Chinese Legislation Yuan, Dr. Sun Fo, had seen the Minister for the Colonies, M. Mandel, during the former's stay in Paris, the Royalist paper, Action Francaise, reaffirms today that Dr. Sun had several conversations with the Minister in the presence of the Chinese Ambassador in Paris, Dr. Wellington Koo, and that eventual French financial assistance for China was discussed.

The paper goes on to assert that, following these conversations, M. Mandel entered into communication with various big French banks regarding advance of funds for hastening the completion of the new railway from Dongdang to Nanning.

The paper points out that completion of this line would greatly facilitate the dispatch of munitions and other war material to China. (Transocean).

### ENGLAND BATS FIRST

London, June 10.

W. R. ("Wally") Hammond, the Gloucester all-rounder, started his career as Test captain of England in fine style, winning the toss against Australia in the First Test to enable England to have first lease of a wicket that is described by the groundsmen as one of the fastest he had ever prepared.

L. Hutton (Yorkshire) and C. J. Barnett (Gloucester) were sent out to open the innings for England and so thoroughly did they master the bowling that they were still together at the luncheon interval with 169 runs on the board. Hutton had by this time

scored 61 runs while Barnett was only two short of his century.

When rain interfered with play later in the day the England total was 200 for 0. Hutton 75 and Barnett 115, both batsmen being not out. The honour of scoring the first Test century therefore goes to England while the opening pair had the distinction of beating the best first-wicket Test partnership (in England) of 185 put up by Sir Stanley Jackson and Tom Hayward at the Oval in 1899.

Frequent showers affected the early attendance and the darkened sky suggested that the cricket would be played between showers. The ground filled slowly, however, and by the time the first ball was bowled there were 10,000 spectators present.

The rival captains were given a great reception when they walked out of the Pavilion for the toss and the England supporters showed their delight in no uncertain manner when it was known that Hammond won it.

### EARLY THRILLS

Hutton and Barnett opened the innings for England and the early stages of the match were packed with drama. Brown, fielding at backward point, dropped a one-handed catch from Barnett when the batsman had only scored three runs.

Then in McCormick's second over Hutton played the ball on to his wicket. The balls, however, were not disturbed and Bradman asked the umpire for a ruling. This was followed by a conference and the batsman was declared "not out."

Forty-five minutes from the start the fifty was hoisted. By this time Barnett, who had "got

## INFORMING THE WORLD OF CANTON BOMBINGS

### CORRESPONDENCE APPEAL ISSUED BY CANTON COMMITTEE FOR JUSTICE

The Canton Committee For Justice, through its chairman, Dr. A. J. Fisher, has issued a letter urging residents of South China and Hong Kong who have correspondence connections with residents, business firms and organisations in foreign countries to use the air mails immediately to give information of the effect of the present policy of bombing by Japanese militarists on the civilian population of Canton.

The effect of thousands of letters, describing in a personal way the loss of lives and wounding of unarmed men, women and children during the past two weeks, reaching officials, businessmen, educationalists and professional men as well as important organisations which can influence public opinion abroad, may result in world opinion being aroused against the military leaders of Japan to such an extent that they will modify their present policy of dropping bombs without regard to loss of life and wounding of unarmed civilians.

#### TERROR ON FACES

The Secretary of the Committee for Justice, Mr. E. H. Lockwood, says in a statement: "We feel helpless when we see the wounded and dead of Canton carried out of the ruins of business buildings and private residences. To see the terror on the faces of women and children leaves a memory which time cannot erase. The only hope is to make the people of Japan know what their military leaders are doing so that they may be checked in their madness, and at the same time to direct the force of public opinion by men and women of all nations who are not willing to be quiet while Japanese bombers are destroying life and mangle bodies in Canton."

"In spite of the fact that the

hope of informing Japanese civilians and residents of other countries of the facts by air mail letters in order to save life and suffering may seem to many to be a vain hope, it is the only way in which most of us can express ourselves.

"If, during the next few days, ten thousand letters from Canton and Hong Kong bring a personal message to individuals and organisations in foreign countries, the effect may be to save lives. To write such letters takes only time and a little money, which is small compared to the suffering of one child mangled by a Japanese bomb."

#### LETTERS POSTED FREE

The Committee For Justice hopes that correspondents will respond to this suggestion immediately and send letters by the earliest possible air mails.

An anonymous sympathiser of the Chinese has offered to provide the cost of mailing all air mail letters which correspondents do not wish to send at their own expense. Such letters may be sent to the headquarters of the Canton Committee For Justice, No. 193, The Bund, or forwarded to Dr. R. L. Lancaster, Sharnett, Professor H. C. Brownell, Lingnan University, or Dr. A. J. Fisher, Kwong Hip Laan, Canton.

### PEAK MURDER CHARGE

Lam Chun, supporting himself with crutches, appeared before Mr. Butters at the Central Court yesterday charged with the murder of Mrs. Sybil Ruby Challinor, at No. 499, The Peak, on the night of May 5.

Lam Chun has been confined in the Queen Mary Hospital suffering from injuries as the result of a fall.

Mr. R. H. Challinor was also injured, it will be recalled.

On the application of the police, Lam Chun was remanded for one week.

### SCAPA FLOW SALVAGE

#### Rearmament Raises Price Of Sunken Warships

Remnants of the German High Seas Fleet lying on the seabed at Scapa have soared in value as a result of Britain's rearmament plan.

Mr. E. F. Cox, principal of Messrs. Cox and Danks, whose daring pioneer work first made the raising of the ships possible, told the Daily Sketch recently that he could then get only £35,000 for the Prince Regent Leopold.

"She was a sister ship of the Kurfurst, which is today worth anything up to £135,000," said Mr. Cox. "We did not concentrate on the smaller vessels. Included in the 32 we raised were six of the Germans' biggest battleships."

"The Hindenburg, 28,500 tons, was the largest, and all we could get for her in those days was £75,000."

"But those were the days of slump. I was just unlucky I did not hang on to the work I started."

"For four years the German Fleet lay at the bottom of Scapa Flow."

"Then I dared to tackle the job, and I was the first man to raise a battleship upside down and float it upside down to a dockyard."

"The men I trained are still on the job, but, unluckily, my firm is out of the running for the profits now being made through the experience we provided."

"But I would like the world to know through the Daily Sketch that it was our firm which first raised six of the biggest battleships."

### ANTI-MALARIA CAMPAIGN

#### Kowloon Residents Fined

Three cases were heard at the Kowloon Court yesterday before Mr. Barnett in connection with the Medical Department's campaign against malaria.

Luk Ming-chung of No. 10, York Road, Kowloon Tong, was fined \$15 for allowing to stand on his premises a discarded jar not empty of its water content. Mosquito larvae and pupae of Aedes albopictus had been found in the jar by a Malarial Inspector.

Mrs. Chan Pak-chung of No. 7, Norfolk Road, Kowloon Tong, was fined \$15. Mosquito larvae had been found in a choked concrete drain on the premises of her home.

Chan Kong-chuen of the Kowloon Poultry Farm was fined \$20 for a similar offence. Larvae were found in a sump on the grounds of the farm. Mr. Kam Nai-fai, Malarial Inspector, prosecuted in all three cases.

### KOWLOON INQUEST HEARING

An inquiry was started at the Kowloon Court yesterday into the circumstances surrounding the death of Cheung H. 26, who fell while being given chase to by the police and was later admitted to the Kowloon Hospital where he died.

Mr. Barnett sat as Coroner and a jury was empanelled comprising Messrs. Mok Chow Tim (Foreman), L. A. Rozario, and Lam Shul-yip.

Dr. Bee, of the Kowloon Hospital staff, was the only witness called.

Giving evidence, Dr. Bee stated that the deceased was admitted to the hospital at 4.50 a.m. He died at 8.15 a.m. and a post-mortem examination was held at 8.30 a.m.

Skin abrasions were found on the left and right knee, a deceased and bruises on his right hand and right cheek-bone. Indicating a fall forward on to his face. A bruise on the back of his head about two inches across was also found. This latter injury was the cause of the deceased's death.

The injury on the back of the head was, in the doctor's opinion, an earlier injury than the others. The injury causing death could have resulted through a fall backwards or through the impact of a flat object, such as a brick.

The further hearing was adjourned to June 16 at 2.30 p.m.

### DORSETSHIRE MURDER CASE

#### Dwyer Committed To Sessions

Edward Moreland Dwyer, aged 19, able-bodied seaman of H.M.S. Dorsetshire, was committed for trial at the Criminal Sessions by Mr. Butters at the Central Court yesterday afternoon on the charge of murder of a shipmate, Leading Seaman Robert Dickinson, aboard the Dorsetshire on May 2 while on a journey from Sydney to Hong Kong.

Mr. John Whyatt, Crown Counsel, conducted the prosecution, while Mr. G. S. Hugh-Jones appeared for the defence.

"I reserve my defence, Sir," said Dwyer from the dock.

At the hearing yesterday, the Master-At-Arms testified that after he had seen the body of Dickinson, he was instructed by the captain to note down the names of those persons who were in the vicinity. He then made a search for the weapon but failed to find it. He discovered an overcoat hanging on a ventilator above the galley on the starboard side of the ship.

On examination he found it contained no owner's name and there were two buttons missing. In the right hand pocket he found a scarf and two buttons. Witness said he left the overcoat where he found it and did not see it again till it was brought to him.

#### SPENT SHELLS

When taking certain ratings to the charthouse to make statements, witness said he saw Dwyer, who was on duty at the wheelhouse, looking at him. Under instructions, he went to Dwyer's locker and found two live rounds of ammunition and some spent shells.

Cross-examined by Mr. Hugh-Jones, witness said the overcoat was brought to him seven days after the tragedy. He searched Dwyer for the keys to the locker but did not find them. He further stated that he did not make any investigation as to whether other ratings had any rounds of ammunition.

A. J. Paul, Commissioned Gunner, who is in control of the issue of rifle ammunition to the ship's rifle team, testified that the ship's rifle team had been on shoots in several parts of call during the voyage. At Singapore, the ammunition issued for the rifle team bore the date 1933 or 1934, as the date of manufacture.

#### USUAL PRACTICE

"It is a usual practice on board the Dorsetshire, that when she is in port the rifles are all locked up in racks, and also at sea. But the importance of them being locked at sea is considered not so great," said witness, who added that there was a rifle missing following the shooting incident.

Lieut. W. J. T. Biscoe, R. M., who is in charge of the ship's rifle club, said that there were about 50 members in the club.

He said that the spot from where the gun was fired to the place where Dickinson was lying, was a distance of about 12 feet, and with good lighting on the decks, it was considered as a shot "very easy indeed" for Dwyer.

Cross-examined by Mr. Hugh-Jones, Lieut. Biscoe said that the worst shot on the ship could have found his mark at such a distance and with good lighting.

### OPIUM ADDICTS ON INCREASE

With the influx of refugees from the "war" zones the number of heroin and opium addicts in the Colony is increasing rapidly and it is now not at all uncommon to have as many as four or five divan keepers appearing daily on trial at the Kowloon Court. Raids are made almost daily on houses in Temple Street, Canton Road, and Shek Ku Lung Road and almost every raid results in the arrest of another divan-keeper.

Yesterday, at the Kowloon Magistracy two divan-keepers were tried. Wang Hong, 52, unemployed, was charged before Mr. Macfadyen with the unlawful possession of 2,917 heroin pills. Sentence of one year, with hard labour and a fine of \$2,500, in default another six months with hard labour, were imposed.

Another unemployed Chinese, Lau Hung, was sentenced to one month with hard labour and was fined \$210, in default another 4½ months with hard labour, when he appeared before Mr. Barnett on charges of possession of 2 taels of prepared opium, possession of 187 heroin pills and keeping a divan.

### LOCAL DOCTOR CLAIMS FEES

#### Summary Court Action

Dr. Li Ping-sum, of No. 156 Hennessy Road, first floor, successfully brought a claim for money due for professional services rendered and medicine supplied against Cheung Shu-plu before the Acting Puisne Judge, Mr. Justice E. H. Williams, in Summary Court yesterday.

The sum claimed was \$458.88 but judgment was given for \$400, with costs.

Mr. S. Ng Quinn, of Messrs. G. K. Hall-Brutton and Co., appeared for plaintiff, while defendant was unrepresented.

Mr. Ng Quinn stated that plaintiff was called to attend defendant's wife in February this year. He was paid for the first two occasions but, between March 1 and April 9, he attended her daily and for this he had not been paid any fee.

#### 82 INJECTIONS

After evidence had been given for both sides, His Lordship, delivering judgment, said: "I am afraid I am unable to believe your story that the doctor promised to cure you for a fixed fee of between \$120 and \$150. I am satisfied that if he had promised a cure for \$150 with between 18 and 20 injections, he would have told you when 30 to 40 injections were reached, and we know, in fact, that the injections at the end of March were 82."

You have made some payments to the doctor, of \$20 and \$75, and you claim that you also paid him \$30.

I therefore find for plaintiff, but I think I will give judgment for \$400, with costs."

#### TRAFFIC CASES

A fine of \$6 was imposed at the Kowloon Court yesterday by Mr. Macfadyen on Mr. A. Vago, of 310, Prince Edward Road. Defendant was charged with having driven his car along Nathan Road in excess of 30 miles per hour.

Mrs. Rose Tam of 1 Suffolk Road was fined \$4 for parking her car in Nathan Road by the Alhambra Theatre.

# PAGE FOR THE CHURCHES

## CATHOLIC NEWS AND NOTES

### TRINITY SUNDAY

Tomorrow is Trinity Sunday. This is one of the few feasts of the Church, and the only major feast, that was first celebrated in England and later spread to the rest of the world.

In the early years of the Church there was no special feast of the Blessed Trinity because it was recognised that the Trinity was honoured in every feast. When, however, at the beginning of the fourth century, the heresy of Arianism, which denied the divinity of Christ, began to spread, it became a custom for priests to recite on every Sunday a special form of the Divine Office in honour of the Trinity.

This custom continued for more than five hundred years, and then a new version of the Office was drawn up by a monk in Liege (who was afterwards venerated as Blessed Stephen) and the custom began in his monastery, and afterwards spread to other monasteries, of singing this Office on the Sunday after Pentecost Sunday.

St. Thomas a Becket, who did a considerable part of his studies in Northern France, evidently came into contact with this custom, which very likely spread to France from Belgium, for when he was consecrated Archbishop of Canterbury on this Sunday, in 1162, he obtained from the Holy See, for England, the privilege of celebrating a special feast of the Blessed Trinity on that Sunday in future. A century and a half later, Pope John XXII, the most remarkable of the French popes, extended this feast to the Universal Church, and it has been observed ever since.

### CORPUS CHRISTI

The Thursday after Trinity Sunday is celebrated throughout the Church as a special feast of the Blessed Eucharist, under the title of Corpus Christi, or "the Body of the Lord." By a strange coincidence this feast also had its origin in Liege, about three hundred years after the special Office of the Blessed Trinity had begun to be recited there. The decision to extend the feast to the whole Church, which took place within a few years, was responsible for the composition of some very remarkable hymns on the subject of the Blessed Sacrament by St. Thomas Aquinas.

It was in the same thirteenth century that the custom of public processions of the Blessed Sacrament began—a custom which passed out of use in many European countries but has been largely revived in recent years. There are public processions, generally on the Sunday following the feast, in most of the chief cities in England now, and they are always treated with the greatest respect by the non-Catholic population.

### DEATH OF WELL-KNOWN ENGINEER

A well-known English Catholic who died recently was Mr. Lawrence Ennis, C.M.G., O.B.E., who as General manager of Dorman Long & Co., had entire charge of the building of the bridge over Sydney Harbour.

It is in reality incorrect to speak of Mr. Ennis as an Englishman, for, like so many other famous engineers, he was by birth a Scotchman. He left Scotland before he was twenty and was with two other large engineering firms, in the United States, before he joined Dorman Long in 1903 as superintendent of bridge and constructional works. He became works manager in 1905 and general manager ten years later.

During the war, when the necessity for increasing the output of munitions led to so many changes in the adjustment of the engineering industry, he established a plant for producing shells and shell steel, a plant which was said to have been the model for many others which were built later.

After the war his reputation for fair dealing helped greatly to his success, as President of the Iron and Steel Trades Association, in bringing to a harmonious conclusion delicate negotiations with the workers' representatives.

From 1924 to 1932 he lived in Sydney as resident Director for his firm during the building of the Sydney Bridge. On August 7th, 1930, when the two halves of the bridge were only a yard apart, planks were put across the gap and Mr. Ennis was the first man to walk across. After his death the Requiem Mass was celebrated in Westminster Cathedral.

### STAMPS DESIGNED BY A PRIEST

Very few people ask who is the designer of a new postage stamp, and it is only by accident that it became known that the new King George VI issue of one of the British Crown Colonies was designed by a priest. The Colony is Sierra Leone, (whose Governor was knighted this week) and it was at the request of the Colonial Government that a missionary, Fr. Francis Welch, C.S. sp. submitted designs, which were then accepted and executed.

There are only two designs in the issue, both pictorial, with the King's portrait set in a panel, in accordance with the custom which is now very common throughout the British Empire. One of the designs represents "a view of Freetown, the capital of Sierra Leone, the city in which it is said that more African dialects can be heard than in any other place in the Continent."

It was in connection with the Wilberforce centenary, five years ago, that Fr. Welch's ability as a designer was discovered. As Sierra Leone is so largely populated with liberated slaves, it was natural that a special stamp issue should have commemorated the occasion. Fr. Welch produced a set of designs which were regarded as highly successful.

On this occasion the new King George stamps are unique in one particular—the King's head is set in a diamond panel. Philatelists say that this is the first time that this has been done on a British stamp.

### CHRISTIAN SCIENCE LESSON SERMON

Subject: God the Preserver of Man

The subject of the Lesson Sermon in all Christian Science Churches tomorrow June 12 will be "God the Preserver of Man."

The Golden Text will be "As birds flying, so will the Lord of hosts defend Jerusalem; defending also he will deliver it: and passing over he will preserve it" (Isa. 31:5).

Among others the following citations will be read from the Bible "Wherefore, my beloved, as ye have always obeyed, not as in my presence only, but now much more in my absence, work out your own salvation with fear and trembling. For it is God which worketh in you both to will and to do of his good pleasure. Do all things without murmurings and disputings: holding forth the word of life; that I may rejoice in the day of Christ, that I have not run in vain, neither laboured in vain." (Phil. 2:12-13, 14, 18).

The following citations will also be read from the Christian Science Textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy "If God makes sin, if good produces evil, if truth results in error, then Science and Christianity are helpless; but there are no antagonistic powers nor laws, spiritual or material, creating and governing man through perpetual warfare. To hold yourself superior to sin because God made you superior to it and governs man, is true wisdom. To fear sin is to misunderstand the power of Love and the divine Science of being in man's relation to God,—to doubt His government and distrust this omnipotent care." (Page 231).

## NEWS ABOUT THE SERVICES

## ROYAL NAVY

## SHIPBUILDING AT COWES

The escort vessel Egret was launched on May 31 at the Cowes shipyard of J. Samuel White and Co., Limited. The naming ceremony was performed by Lady Mitchellson, wife of Sir Archibald Mitchellson, chairman of the company.

After the launch there was another ceremony, when the keel-plate of the second of the new Brazilian destroyers, ordered from the firm about six months ago, was placed in position. This was performed by Mrs. Nelva, wife of Captain Nelva, Chief of the Brazilian Naval Commission in Europe.

## H.M.S. COSSACK

The new destroyer Cossack, Captain D. de Pass, second of the Tribal class ordered under the supplementary Navy Estimates of 1935, will commission at the High Walker shipyard of Vickers-Armstrongs, Limited, Newcastle-on-Tyne, on June 10, for her acceptance trial and service in the 1st Tribal Destroyer Flotilla, Mediterranean Fleet. The Cossack will be manned from Portsmouth, where she is expected on June 12. Among her officers are Lieutenant-Commander B. T. Turner, formerly

Flag Lieutenant and squadron signals and wireless officer, 3rd Cruiser Squadron; Lieutenant V. C. Begg, from the experimental department of the Excellent, gunnery school; and Commander (E) E. F. H. Lawson, who was engineer officer of the destroyer Dainty in China before his promotion.

## NAVAL APPOINTMENTS

The following appointments are made by the Admiralty:—  
Capt. R. S. Benson, to President duty on staff of R.N. War College, Greenwich (July 23).

Payr. Sub-Lt.—J. G. West, to Bee (June 10).  
Wt. Writers—C. Cronin, to Drake (June 7); J. A. Oldfield, to Woolwich (undated).

## PROMOTIONS

Mids. (A).—C. Wilkinson, K. W. Hedges, to rank of Act. Sub-Lt. (A) (seny, respectively May 7 and 30).

## RETIREMENT

Sub-Lt.—M. I. Kennard, placed on the Retd. List (May 6).

## FLEET AIR ARM

J. R. W. Groves, transferred to R.N. as Act. Sub-Lt. (A) (seny June 20), and apptd. to Victory for R.A. F. base, Gosport.

## ROYAL AIR FORCE

## CIVIL LICENCES

Because of the reorganization of the School of Air Navigation it will no longer be possible for R.A.F. candidates for the second class civil aircraft navigator's licence to be examined at Manston. In future all applications to sit for the supplementary examination are to be addressed to the Under-Secretary of State, Air Ministry, Ariel House, Strand, W.C.2. Claims for exemption from certain subjects of the examination in respect of candidates who have passed a short navigation course at Manston are to be submitted at the same time.

## STAFF COLLEGE REUNION

The reunion dinner of the R.A.F. Staff College will be held at Grosvenor House on July 1, with Air Chief Marshal Sir Edgar Ludlow-Hewitt, who was Commandant of the college from 1928 to 1930, in the chair.

## BRITISH CONSULAR APPOINTMENT

London, June 10.  
Mr. G. D. N. Haggard, British Consul-General in Paris, will succeed Sir Gerald Campbell as Consul-General at New York. The change will take place in the autumn. (British Wireless).

## 39 CHARGED

## Subversion In Polish Army

Thirty-nine people, including 26 Jews and nine women, have been charged as agents of the Comintern (Communist International), with having organised communist propaganda in the Polish Army.

It is alleged that they formed cells of three to five persons as the nucleus of regimental cells, with a view to the creation of a Popular Front. They also distributed pamphlets which Soviet army officers had prepared, teaching soldiers how to transform an "imperialist war" into a civil war, including desertion to Russia, in the event of war between Poland and the Soviet.

Much of the evidence will be taken in camera.

## FINNISH GENERAL ENTERTAINED

London, June 10.

His Majesty's Government entertained Lieutenant General K. L. Oesch, Chief of the General Staff of Finland, at luncheon yesterday. Sir Thomas Inskip, Minister for the Co-ordination of Defence, was in the chair. (British Wireless).

## SOUTH AFRICAN AIR DISASTER

## Military Funeral For Victims

The bodies of the Royal Air Force men, which were recovered from the wreckage of the South African Air Force machine that had crashed in the African bush 20 miles north of Limpopo river, will be conveyed to Pretoria by air today.

The wreckage had been located from the air and a rescue party had cut its way through miles of bush in order to reach the scene of the disaster.

Mr. Otto Pirow, South African Minister of Defence, will attend the military funeral, along with 3,000 South African and British troops.

The Premier, General Hertzog has sent a message of sympathy to Mr. Neville Chamberlain, and has started a public subscription on behalf of the dependents of the victims of the disaster. (Trans-ocean).

## MORE RECRUITS

London, June 10.

Regular army recruits last week numbered 727, an increase of 268 over the corresponding week of last year. (British Wireless).

## REORGANISATION OF INFANTRY AND ARTILLERY

## British Army Changes

London, June 10.

The War Office announces that consequent upon the reduction in number of infantry battalions in a division, as announced by the Secretary for War in the House of Commons on March 10, it has been decided to make certain changes in the composition of the 1st, 2nd and 3rd Div., and, in peace time, the object being to effect concentration of the whole of the infantry of the 1st and 2nd divisions in the Aldershot Command and of the Mobile Division in the Salisbury Plain Area.

It will be recalled that in announcing the proposed changes in the composition of the motorised division based on the light machine-gun, Mr. Leslie Hore-Belisha explained that a war division, which would be a flexible formation of might in the future, should consist of nine battalions supported by artillery and other arms according to need.

## TWELVE FIRE UNITS

At the same time, the intention to reorganise divisional artillery in five units of twelve instead of six guns was announced.

Changes in infantry and artillery units are necessary to give effect to the above reorganisation.

The next step is reorganisation of divisions and redistribution of units to bring them under more effective divisional control. Effect will be given to this redistribution during the individual training season 1938/39. (British Wireless).

## 400 U.S. PLANES FOR BRITAIN

## Purchase Recommended By Air Mission

London, June 10.

The Air Ministry announces that the Government has agreed to buy 400 aircraft from two American manufacturing firms. Two hundred of these planes will be for general reconnaissance duties and two hundred for advanced training.

The purchase was recommended by the Air Mission which recently went to the United States.

The Mission also discussed with firms in Canada the possibility of bringing into being increased capacity plants in that country for the manufacture of aircraft on a long-range plan.

The Government is considering certain tentative proposals which have been formulated as a result of these discussions. (Reuter).

## GERMAN GIRLS VISITING BRITAIN SAID TO BE ACTING AS SPIES

The fear that German girls coming to England on holidays or for jobs as companions and domestics were being employed as spies, was expressed by Mr. Geoffrey Mander (Lib) in the House of Commons recently.

He said many such girls were employed by the families of officers at Aldershot.

He added that German subjects in England were under the strict control of the Gestapo (German secret police) in addition to British police. The Government should consider clearing Gestapo agents out of England.

The Under Secretary for the Home Office (Mr. Geoffrey Lloyd) said existing regulations did not permit girls and women to come to Britain and take up domestic service without permission and each case was investigated carefully.

## WALTZ OUT OF STEP IN NEW VIENNA

Fewer of the characteristic Viennese waltzes and more marches are being played in cafes and restaurants or by the broadcasting stations.

An official stated that there was no intention of cutting out the Viennese waltzes, though probably the waltzes of Lehar and Strauss would be less frequently included. "We will encourage new works," he said, "giving preference, of course to Aryan composers."

## A MOTHER'S SACRIFICE

"Stella Dallas" which is showing today at the Majestic Theatre, is adapted from the famous novel of the same name by Olive Higgins Reunty.

Starring Barbara Stanwyck, John Boles and Anne Shirley, the picture deals with a mother's many sacrifices for her daughter. As the tawdry woman whom everyone regards as a ball-and-chain staying her daughter's happiness, Barbara Stanwyck rises to supreme heights of drama.

The picture was directed by King Vidor, who has been responsible for many notable screen successes.

## SUBMARINE D-1

Life in a submarine, with all its harsh drama and grim reality, are revealed in "Submarine D-1," a Warner Bros. picture featuring Pat O'Brien, Wayne Morris, George Brent, Regis Toomey, Frank McHugh and Doris Weston, showing at the Queen's and Alhambra Theatres today.

The United States Navy co-operated with the producers in the making of the film, and all the facilities at Newport (Rhode Island), Cocos Island (Panama Canal Zone) and San Diego (California) were placed at the disposal of the producers.

## IN EPIC OF MOTHER LOVE

## DISPUTE OVER CARE OF CANADA'S QUINTUPLETS

Famous And Wealthy Babies May Be Subject Of Judicial Investigation

As the celebrated Dionne quintuplets approached their fourth birthday—they were born May 28, 1934—they had recaptured front-page space in the newspapers as the centre of a loud and angry argument concerning the management of their persons and their joint fortune of more than \$600,000.

The babies are wards of the King, by virtue of an Act of the Ontario Legislature which set up a board of guardians that includes Olivia Dionne, their father, and Dr. A. R. Dafoe, the country physician who shares their fame because he brought them into the world and kept them alive under the most unfavourable conditions.

Apparently dissension in the Dionne establishment at Callander, where the babies live in their exclusive "Dafoe Nursery," came to a head with changes made by the guardians in the nursing staff. Shortly afterward Olivia Dionne engaged counsel, and his lawyer wrote the Ontario Government asking for a judicial enquiry into the supervision of the quintuplets by Dr. Dafoe and the management of their assets by the official board.

### PROTEST MADE

Speaking for his client, Mr. Henri St. Jacques, K.C., declared the legitimate desires of the father to have control of his own family had been "crushed pitilessly," and he protested against "the cruelty of certain scientists who tried to make the children subjects for experimentation," and called for reforms in the management of the nursery, in the education of the babies and in the administrative expenses.

Dr. Dafoe, discussing the request for an enquiry, said he might make a full statement later. But meanwhile he pointed out that the quintuplets now have \$810,000 in bonds and other contracts that probably will bring their fortune to a million dollars in three or four years.

Income from the estate now is sufficient to pay running expenses of the nursery, said to be about \$2,000 a month, and the monthly payment of \$300 made to their parents.

This spring under their contracts, the quintuplets are to make another full-length motion picture, and still another is on the programme for 1939.

Then, according to Dr. Dafoe, they will drop movie-making during their years of education. At any rate Marie Yvonne, Annette, Cecile and Emilie do not need the additional money intensive screen work would bring them.

Since their birth the babies have been one of Canada's foremost attractions for tourists, and arrangements finally were made by which visitors could see the children from a screened corridor while they themselves were invisible to the babies. Whether this plan will continue is not known. The desire of Dr. Dafoe and all associated with him is to rear the young Dionnes in the most natural atmosphere that can be devised, and the wishes of tourists cannot be given first thought.

# FURTHER AIR ATTACKS ON BRITISH SHIPPING IN SPANISH WATERS

## Nationalist Plane Pours Machine-Gun Bullets Into Brisbane's Escaping Crew

### Incidents Cause Anxiety In London

Valencia, June 10.

Further attacks on British shipping in Spanish waters have been reported. The latest instance is the machine-gunning of the Stanray by a seaplane in the harbour here at 2 a.m. this morning. The machine flew low over the vessel and machine-gunned her across the bow. There were, fortunately, no casualties. It is now revealed that in addition to bombing the British steamer Brisbane at Alicante, yesterday, the Nationalist Spanish plane fired between 2,000 to 3,000 machine-gun bullets into the vessel, which finally grounded. When the crew was making for shore in an open boat, the plane dived low and machine-gunned the men. The total casualties among the Brisbane's crew is now stated to be five dead and six wounded.—(Reuter).

## R.A.F. RECORD FLIGHT

London, June 10.

An R.A.F. Short Sunderland flying boat has made a record non-stop flight from Pembroke Dock to Gibraltar in eight hours. The plane is on a service flight to Singapore via Malta, Alexandria, Karachi and Calcutta.—(Reuter).

## NO VATICAN MOVE AGAINST GENERAL FRANCO

Vatican City, June 10.

No official protest has yet been made by the Vatican to General Franco on the subject of bombing. It was pointed out today that the Holy See does not make diplomatic moves in conjunction with other Powers in order to avoid suspicion of political motives.

It was, however, stated that the Vatican has, through its representative at Burgos, constantly urged General Franco to do all in his power to avoid causing needless suffering to non-combatants.—(Reuter).

## JOINT PROTEST

Barcelona, June 10.

The captains of seven British merchantmen at present in Barcelona have lodged a memorandum with the British Consul here, to be forwarded to the Foreign Office in London, protesting against air attacks on their vessels.—(Reuter).

## LONDON ANXIETY

London, June 10.

There is grave anxiety in London with regard to the bombing of British ships in Spanish waters. For no reply has yet been received from General Francisco Franco to the strong British protest lodged last week.

In is understood, however, that his method of justifying the attacks will probably be the plea of military necessity.

With regard to the suggestions which are being considered for active measures to prevent attacks on merchantmen, it is pointed out that the problem is by no means easy to solve owing to the technical and practical difficulties.

For example, the establishment of an air patrol is almost impossible owing to the number of planes required to make it effective and it is also hard to conceive of a scheme of reprisals which could be carried out successfully without bloodshed.—(Reuter).

## NO AIR PATROL

London, June 10.

It is officially denied that the Government is planning a flying patrol on the Spanish coast for the purpose of protecting British shipping.—(Reuter).

## RUSSIA PREPARES AGAINST GROWING MENACE OF WAR

Leningrad, June 10.

The military vigilance of the Soviet Union has been intensified in view of the growing menace of an imperialist war, declared M. Zdanoff, leading member of the Central Executive Committee of the Communist Party, addressing the opening session of the regional Party conference here yesterday.

Events in China and Spain, he said, had made it the sacred duty of the Soviet Government and the Party to keep the Soviet Union in a permanent state of preparedness.—(Transocean).

# FOOT ITCH Athlete's Foot

According to the Government Health Bulletin No. E-38, at least 50% of the adult population of the United States are being attacked by the disease known as Athlete's Foot. Usually the disease starts between the toes. Little watery blisters form, and the skin cracks and peels. After a while, the itching becomes intense, and you feel as though you would like to scratch off all the skin.

## BEWARE OF IT SPREADING

Often the disease travels all over the bottom of the feet. The soles of your feet become red and swollen. The skin also cracks and peels, and the itching becomes worse and worse.

Get rid of this disease as quickly as possible, because it is very contagious and it may go to your hands or even to the under arm or crotch of the legs.

Most people who have Athlete's Foot have tried all kinds of remedies to cure it without success. Ordinary germicides, antiseptics, salve or ointments seldom do any good.

## HERE'S HOW TO TREAT IT

The germ that causes the disease is known as Trinea Trichophyton. It buries itself deep in the tissues of the skin and is very hard to kill. A test made shows it takes 15 minutes of boiling to kill the germ; so you can see why ordinary remedies are unsuccessful.

H. F. was developed solely for the purpose of treating Athlete's Foot. It is a liquid that penetrates and dries quickly. You just paint the affected parts. It peels off the tissue of the skin where the germ breeds.

## ITCHING STOPS IMMEDIATELY

As soon as you apply H. F. you will find that the itching is immediately relieved. You should paint the infected parts with H. F. night and morning until your feet are well. Usually this takes from three to ten days, although in severe cases it may take longer or in mild cases less time.

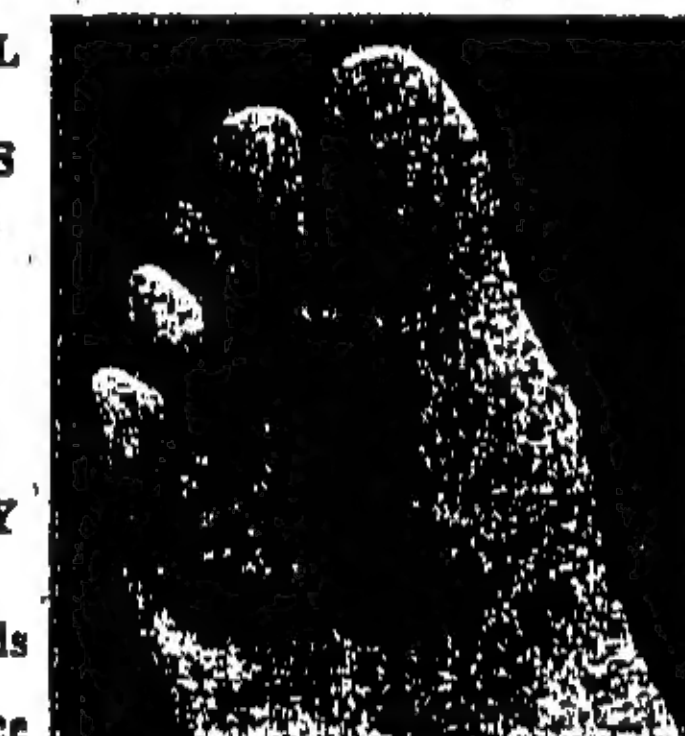

H. F. will leave the skin soft and smooth. You will marvel at the quick way it brings you relief, especially if you are one of those who have tried for years to get rid of Athlete's Foot without success.

SHARP DROP IN  
SHANGHAI  
DOLLARDecline Likely To  
Continue

Quoted on June 7 at 1s. 1d., the Shanghai dollar staged a sensational drop yesterday morning, when the quotation on sterling was 8.15/16d., and it is believed that this decline is likely to continue.

Though the sterling rate of the Hong Kong dollar was unaffected, the business rate between the ports fluctuated violently.

London rates quoted the dollar (Shanghai) at 9d. on Thursday.

WEDDING AT  
REGISTRY

Mr. Frank Leader Brown, engineer, and Mrs. Muriel Winifred Holmes (née Bateman) were married at the Registry, Supreme Court, yesterday.

Mr. W. Aneurin Jones, Deputy Registrar of Marriages, officiated and the witnesses were Messrs. J. E. Potter and F. W. T. Ross.

The wedding of Mr. Tso Tsun-on, son of Dr. S. W. Tso, O.B.E., LL.D., and Miss Beatrice Chan, will take place on Wednesday. A reception will be given at the Hong Kong Hotel in the afternoon, at which His Excellency the Governor and Lady Northcote will be present.

APPEAL FOR  
CHOLERA  
SAFEGUARDSMr. Ho Kom-tong's  
Radio Speech

Mr. Ho Kom-tong made an appeal in Chinese over Z.B.K. station on June 3 for increased precautions against the spread of cholera in Hong Kong and also spoke on measures for the prevention of the disease.

Mr. Ho Said:—

'Cholera is a sickness of the bowels. The usual symptoms are severe diarrhoea, vomiting, muscular cramps and stomach-ache. In some cases there is diarrhoea without vomiting; in others, there is vomiting without diarrhoea. Again, in some cases the patient may suffer from cramp and stomach-ache without vomiting, while in other cases, known in Chinese as 'Dry Cholera', the patient wants to vomit and to relieve the diarrhoea but is unable to do so.

It does not matter whether only one or all of the above mentioned symptoms are present, the important thing to note is that Cholera is essentially a dangerous attack on the bowels.

A person attacked by Cholera should at once get medical attention otherwise death may follow in a few hours.

## NO UNCOOKED FOODS

First of all, eat or drink nothing which has not been recently cooked. This is the first principle of prevention. Therefore, do not eat raw vegetables or fruits which are cut and exposed for sale in the streets but eat only those which have been cooked and cooked recently.

In accordance with this principle, you must also avoid eating uncooked fish, mussels (ham shai hin), oysters and other shellfish. Jellies such as 'Jeung fan' and 'Man tau lo' must be avoided.

As for what you drink, remember to boil everything before you drink it. Water and milk, in particular, must first be boiled before drinking. Ice-creams, iced jellies and icy waters, are dangerous drinks during the epidemic unless they are made by well-known and reliable firms which subject these things through a process of sterilization and boiling before they are manufactured, in which case they can be taken with a margin of safety.

All your kitchen utensils, such as knives, forks, spoons, dishes, chopsticks, must be thoroughly cleaned with boiled water and dried with clean towels before they are used.

## FLIES AND COCKROACHES

Another class of carriers of this disease are the flies, cockroaches and centipedes. They are your most dangerous enemies. If therefore you see a fly on your cooked food, don't treat this lightly, but re-cook your food at once before eating.

But what happens if others are attacked by Cholera? The first thing is to boil all the clothing of the victim (whether he be alive or dead)—all his pillows, handkerchiefs, etc. must be boiled, immediately or washed in 'Jeyes' Fluid or similar disinfectant, such as sulphur, before they can be used again.

If you live in a place without any water-closets, then you must insist that clean covers be used for all conveniences, whether they are moveable or not.

## INOCULATION

Finally, and most important of all, you must all get inoculated as soon as possible. This is the best way for guarding you against an attack of Cholera. According to medical opinion, inoculation gives you immunity from Cholera for about five months. The percentage of those who succumb to Cholera after inoculation is very small, and in those cases, the attack is usually mild and therefore the chances of cure are brighter.

At present the Government has a large supply of vaccine for inoculation, which you can all get without spending any money, for the service is free. There is practically no pain and so you have no need to fear. If you have a more-than-ordinary skin and feel some pain after the inoculation, then apply hot wet towel to the inoculated spot and the pain will be relieved in a few hours.

Last year there were 1,082 fatal cases of Cholera. This year, with Hong Kong crowded as never before, it is vitally necessary for you, if you value your life, to get inoculated as early as possible.

THE REFUGEE  
PROBLEMPlan For District At  
Caroline Hill

## ERECTION OF SHEDS

A scheme for the establishment of a refugee district near Caroline Hill is being drawn up by the Chinese General Chamber of Commerce and various charity organisations, according to the vernacular press, says Central News.

According to the scheme, sheds such as those which housed the athletes in Berlin during the last World Olympics, will be erected to accommodate the refugees.

The scheme will be presented to the Hong Kong authorities for approval before it is put into operation.

In view of the great number of refugees now in Hong Kong, these organisations are also devising ways and means to transport them elsewhere where the cost of living is lower.

## 1,000,000 SETTLERS AT

## NINGHSIA

Ninghsia, June 10.

General Ma Hung-kwei, Chairman of the Ninghsia Provincial Government, expressed his welcome to the migration of war refugees to Ninghsia in an interview with a Central News correspondent yesterday.

The thinly-populated province, according to General Ma, is capable of accommodating at least 1,000,000 settlers.

WELL-KNOWN  
ENGINEER DIES  
IN SHANGHAIMr. Sidney J. Powell's  
Long Connections  
In China

Wide experience in England, Egypt, and the Far East marked the career of Mr. Sidney John Powell, A.M.I.C.E., whose death occurred in Shanghai on June 5, after a short illness.

Mr. Powell, who was a member of the Engineering Society of China, and a Fellow of the Royal Geographical Society, was born in Chester, England, 1872. He is survived by two children—Mr. Trevor Sidney Powell, who is the Assistant manager of the Asiatic Petroleum Co., in Shanghai, and Mrs. King, whose husband, Major King, is in the Indian Army.

Mr. Powell first came to China in 1902 as assistant civil engineer on the Talkoo Dock construction at Hong Kong. He held similar positions on the British Admiralty Dock at Hong Kong in 1904, and the German Consulate at Canton in 1906.

SERVED IN GREAT WAR  
Becoming Chief Construction Engineer for the Standard Oil Co. of New York in 1908, he designed and constructed all of the company's plants throughout North China.

Returning to England in 1914, with the outbreak of the Great War, he joined the Special Reserve, Royal Engineers, and was assigned to the construction of strategic railways in North West India and Cashmere.

Establishing his own firm in Shanghai in 1915, he served as Advisor to the Chinese Government, built the Dollar wharf, the Vacuum Oil Co.'s wharf, and has designed and erected cotton mills and other structures.

FELICITATIONS  
TO THE KING

The following telegram was dispatched on Wednesday by His Excellency the Governor to the Secretary of State for the Colonies:

"Grateful if you will convey to His Majesty King George the loyal and hearty congratulations and good wishes of all communities in Hong Kong on the occasion of his birthday."

WELCOME CHANGE

London, June 10. Concluding evidence at the Oxford Police Court, where John Bruce Thornton re-appeared on charges of possession of arms and intention to endanger life, in the "Lord Nuffield plot" was given by Major Ramsden yesterday.

Witness said that he had tried in every way to put Thornton off the kidnapping scheme.

He communicated with the Police on May 12, since when he had been acting under Police instructions.

Ramsden said that he later had an interview with Lord Nuffield when a certain scheme was put forward which was suggested to Thornton. (Reuter).

HONG KONG, JUNE 11, 1938

JAPAN IS  
DESPERATE

HORROR and intense indignation have been the reaction of peace-loving nations to the merciless bombings of Canton.

But, in spite of the protests, this wanton massacre of civilians continues and the Japanese spokesmen smugly announce that they are "satisfied" with the results.

In the light of the recent changes in the Japanese Cabinet this is not in the least surprising as, although the invaders are no nearer to conquering China, the reshuffle showed that the "militarists" had finally managed to conquer Japan.

With all opposition swept away, the military dictators are now free to carry on the China campaign in as brutal a fashion as they wish.

The slaughter of innocent women and children seems to afford much satisfaction to the Japanese but they fail to realise that by their bestiality they are defeating their own ends.

AS GENERALISSIMO Chiang Kai-shek pointed out on Thursday, the mass killings of civilians, instead of terrorising the people, arouse even stronger hatred against the invaders and strengthen the determination to fight to the bitter end.

Although the Cabinet changes have resulted in an intensification of the hostilities, neutral observers see in this development confirmation of the reports that the Japanese are aware of their desperate position and are trying to avoid disaster by attempting to force an early end to the war.

It has been openly stated that the resources of Japan are to be wholly concentrated on the consummation of Japan's aims in China; that is, everything must be set aside and first attention devoted to the war.

Thus Japan at last drops the shallow pretence that her assault on China is merely an "incident." The war-lords and oily-tongued propagandists of the Island Empire now find it necessary to acquaint the people of the difficulties facing their troops and to arouse them to a fresh pitch of patriotic fervour requisite to restore the pugnacious spirit that China's successful resistance has dampened to a very large extent.

IT IS WITH that idea in mind that the Japanese are persisting with the mass air raids on Canton, hoping that by their frightfulness they will divert attention from the situation in the north.

But the Japanese will never succeed in breaking the Chinese morale by these methods. In fact the men of China are flocking to the colours in their tens of thousands even though they know that the Japanese fighting forces are equipped with the most terrible weapons of destruction.

They know that a great many of them must go to certain death, yet their spirit never wavers.

In fact the Chinese army has more than doubled since the outbreak of the war. The fighting ability of the Chinese soldiers also has increased to a marked degree.

This was amply illustrated at Hsuechow. The Chinese forces defending the Lungtai railway were caught between the Japanese

AMOY MAY BE  
DEVELOPED AS  
A NAVAL BASE

(From Our Own Correspondent)

Canton, June 10. While strong defences have been set up in Swatow, women and children today moved to the interior for safety.

The high command in Canton has the Swatow situation well in hand, and Lieut.-General Wong To is in charge of the defences in Swatow with the assistance of militia under Colonel Liu Chi-luk, who specialises in guerrilla warfare.

A report states that the Japanese may develop Amoy into an important naval base in South China. Well-informed foreign circles here do not believe that Amoy will be converted into another Singapore, because first choice will go to Formosa.

More anti-aircraft guns have been installed in Canton while the arrival of Chinese fighters from the north is keenly awaited.

SCHOOLMATES IN  
TOKYO MEET  
IN HANKOW

Chinese Teacher And  
A Japanese  
Soldier

Hankow, June 10.

Two weeks after the fall of Nanking, Wu Ching-liu, a teacher, was stopped in the street by several Japanese. While he was being thoroughly searched, one of the Japanese soldiers recognized him as his schoolmate in a law college in Tokyo.

Without betraying himself, the Japanese soldier in a low voice asked the Chinese for his address, saying that he would visit him that night. Then, he pushed him away.

That night, the Chinese waited in his house. Finally, the Japanese came and the two did not have much difficulty in recalling their college days.

Then suddenly turning serious, the Japanese said he did not like the war and proposed that the two should run away together. Whereupon, the Chinese emphatically said, "No, because if we are arrested by the Japanese or the Chinese, one of us will surely be executed as a traitor and the other as an enemy."

The two then consumed wine and sang until tears came to their eyes. Shortly before daybreak, the Japanese soldier, after having wished his schoolmate good luck, left and was soon lost among the thousands of other Japanese soldiers.

Wu, who gave the foregoing account, recently passed through Hankow. (Central News).

## CLOSED TO SHIPPING

Kongmoon, June 10.

It is reported that the channel at Kwanghoi in Tolshan district is closed to shipping as a precautionary measure, as a Japanese destroyer has been seen there for the past several days.

Foreign ships and gunboats were notified not to use this channel yesterday. (International).

armies advancing simultaneously from the north and south.

They could not escape far to the east, for that way lay the sea and the Japanese fleet; the net was almost closed. But the Japanese failed to make their catch. The long Chinese resistance spoilt their plans.

THEY could not move swiftly or secretly enough to outflank the Chinese, who knew the country better and had the advantage of a friendly population.

When it finally became clear that the Japanese would smash their way through, Generalissimo Chiang Kai-shek quietly withdrew his best divisions to the west, leaving the provincial troops to hold up the Japanese advance.

This they did most successfully and then, marching south-east, where the Japanese least expected them, they turned westward and crossed the railway, passing through the Japanese lines with ease.

So the plan failed and Hsuechow will become famous as the outstanding triumph of the modern Chinese army in the open field.

The war will drag on for many months yet but with the Chinese people so united and led by such able men as Generalissimo Chiang, there can be no question of the outcome.

What Our  
Readers Say  
FILM OF CANTON  
BOMBINGS

(To the Editor: "The Hong Kong Daily Press")

Sir—I happened to go into one of our cinema theatres here in Hong Kong two days ago, and included in their programme was a new reel showing the bombing of Canton or to be more correct, the scenes of destruction after the bombing by the Japanese of the city, and after seeing this film to say that I was disgusted to put it very mildly, and I am sure anybody else, that was civilised would feel the same should they go and see it too.

So far to most of us the bombing of Canton was just something that we read in the newspapers, perhaps some accounts being more detailed and descriptive than others. We may, at the time of reading such news, feel sympathetic towards the people living in Canton, and as our eyes turn to other news items we sort of just forget all about this bombing of Canton and that would be the end of it until we read something about it again the next time we pick up a paper.

It seems that after seeing this film something more than sympathy has stirred inside me, something that is really difficult for me to describe. I should at best put it as a mixture of disgust and anger.

In this newsreel you will see rows and rows of dead bodies, some mutilated beyond recognition, some more fortunate to be in one whole piece. Incidentally, you will be getting very good close-ups of them, but the sight that would probably stir you as much as it did me was the sight of little children among them. Well, you only had to take one look and that would be quite enough.

Let us suppose you are sitting through the showing of this newsreel. First impressions are not too bad, then as it progresses you are shown one or two stray bodies and then all of a sudden this terrible sight of the children comes into view. You shudder, something in your throat is running up and down, then all of a sudden you realise that those children there on the screen may be your own one day and right here in Hong Kong. And just at this point, see what are your feelings towards these cowardly murderers that the newspapers call "Japanese Aviators." I have another name for them but I am afraid, firstly, it would not be allowed in print and, secondly, even such a name would be too good for them. It would even be a compliment at that.

I suppose these wonderful Japanese spokesmen that we read so much about in the newspapers and whose schoolboy excuses surpass anything we have heard, would have quite a good explanation for this "discriminate" bombing of defenceless women and children; if I am any good at guessing, these spokesmen would probably say that these little children were seen by their wonderful and brave marksmen of the air to be throwing stones at their planes and so they constitute a danger and a menace to their raiding planes.

I have heard and read so often that this war is the work of Japan's militarists and that the average Japanese civilian and business man is very much against it as, firstly, it is bad for his business and, secondly, he can see no reason, apart from what the militarists would have him believe, why their country should go about murdering innocent people, especially their neighbours, and that so many Chinese have to be slaughtered before Asia is made a place for the Asiatics.

In view of this, I suggest all the Japanese people in Hong Kong go and see this newsreel and see for themselves, and if in their own honest opinion think that all this killing of innocent people, is not wanton, ruthless and indiscriminate and work of not humans but lunatics, then let them write home to their people and give them a true and honest account of what is really happening in China and not what they are made to swallow back home in Japan. I don't think this is asking too much of the Japanese people here if they have minds and courage of their own and are not suffering from indigestion due to politics and political ideas being rammed down their throats, as are their unfortunate brothers and sisters at home in Japan.

Moreover, any of the Japanese people who go and see this newsreel, just imagine the little ones and the women lying dead in the

Fashion Notes From  
The Government  
House Garden Party

(BY ROZANNE)

THE GARDEN PARTY held in honour of His Majesty's Birthday at Government House on Thursday was most obviously enjoyed by all, as one glance at the assembly proved.

After being received by His Excellency the Governor and Lady Northcote the visitors passed into the garden where a perfect riot of colour met the eye. There was so much beauty strolling on the smooth green lawns, standing under the big shady trees, or imbibing ice creams and cooling drinks at the little white-covered tables that it was with the utmost difficulty I could pick out anyone separately, since all looked charming.

Lady Northcote led the fashion, side Miss Margaret Middleton her gown of a delicate pastel mauve was of flowered chiffon, and her enchanting large brimmed hat was trimmed with a feathered motif in toning colours.

Black and white were extremely popular. Mrs. Jack Macgregor chose this combination and her large hat had a remarkably Gainsborough-like air, the effect being most charming. Mrs. Dow's frock in which black and white predominated was of a most intriguing pattern.

Mrs. Middleton Smith's shady hat, trimmed with languishing ostrich feathers, was a most fitting crown to her black model. A white slip peeping under black lace suited Mrs. D'Almada to perfection, and I caught a glimpse of a fascinating flight of mammoth white butterflies on Miss Anne Dowbiggin's black frock.

## PARASOLS POPULAR

WHAT? or wait?—The answer to this question was to be found in one look at Miss Beca Cohen's provocative headgear. We must be getting romantic. Parasols were quite in evidence. Mrs. Tancock's was carried 'out in the same fabric as her frock, while Miss Flower's was quaintly Victorian to match her adorable poke bonnet.

Manifold pale-blue sequins covering the dark-blue net dresses of the Misses Kotewall glistened be-

picture may very easily portray a scene of your own city and home, and the victims may be your own wife and children. Don't think this is impossible, the day may not be far off. If any of your spokesmen tries to explain it all off by saying that it was entirely accidental, then petition your Government to have the eye-sights of all your aviators tested before they are allowed to get into another plane, because one of these days they may fly in the wrong direction and drop a few bombs on Tokyo.

REFUGEE RELIEF  
COUNCIL

(To the Editor of the Hong Kong Daily Press)

Sir—We, the undersigned, feel that the situation has now developed to a point where it is absolutely necessary to form a voluntary body to deal with the problem of refugees from Canton and other parts of South China.

We are therefore inaugurating an Emergency Refugee Council as from today. We have been pursuing this subject already for several days; we have been in touch with Government, the Tung Wah Hospital and other bodies concerned; and have the latest facts and figures at our disposal.

An office has been opened in Room 308, Bank of East Asia Building (Telephone 21245), where one of the Joint Secretaries will be in attendance during office hours.

As a preliminary, we would like to appeal to each and every individual, organisation, or body of any sort who either are working for or are willing to work for the refugees, to get in touch with our office before 5 p.m. next Tuesday if possible.

If this information is quickly forthcoming it should be possible for a representative Council to be formed within a few days for immediate co-ordination and action.

Miami, June 10. It is stated that Franklin Pierce McCall, held on suspicion in the Oash kidnapping, and his wife, lived for six months in a flat in the home of the father of the dead child but moved in April to another home in the locality.

Sheriff Coleman said that McCall himself led the Police to the thickets where the body was found, and also it was McCall who "found" the third ransom note and called the attention of the boy's father to it. He afterwards joined in with the searchers.

The Sheriff added that he arrested McCall a week ago because he suspected his story. (Reuter).

# LINGNAN STUDENTS ENCOUNTER RAID

## Japanese Bombs Damage Baggage Coach

### GIRL STUDENTG BRIDGE SHEKLUNS HIDE UNDER

A party of 120 men and women students of Lingnan University arrived in Hong Kong shortly after 10 a.m. yesterday after a 34-hour trip by train from Canton fraught with thrills and danger.

Between 300 and 400 other passengers and refugees arrived on the same train, which was bombed by Japanese planes at Sheklung early on Thursday.

One of the students told a Central News representative that following the dropping of three bombs on Lingnan University on Wednesday the university authorities immediately chartered a special coach to transport students, who wished to leave the campus to Hong Kong. The mixed train, with four other coaches, was originally scheduled to leave Canton at 11 p.m. on Wednesday night, but owing to an air raid the departure was delayed until 3 a.m.

Shortly after the train reached Sheklung on Thursday morning a fleet of Japanese planes appeared overhead and began to rain bombs on the line. One student estimated that around 30 bombs were dropped on Sheklung and the vicinity.

A direct hit was scored on the locomotive, damaging the baggage coach just behind the engine. None of the passenger coaches were damaged, however. One woman passenger died of shock.

**HID UNDER BRIDGE**  
The students and refugees scattered into the paddy fields and under trees for protection during the raid, while a number of girls, not knowing that they had fled to a spot where the Japanese airmen would obviously try to bomb, hid under the Sheklung Bridge.

The tracks were repaired a few hours later but the passengers had to wait for another locomotive to come from Canton. The train finally pulled slowly out of Sheklung at 7 p.m. on Thursday but another air raid alarm was sounded, sending the passengers into the fields once more.

For four hours these students and refugees remained in the open fields, where they were soaked by a light rain. Finally the train got away, arriving at the Kowloon station yesterday morning. (Central News).

Canton, June 10. Allowing no respite for the Canton populace, Japanese planes again started a moonlight raid over the city between 7.15 and 11 o'clock last night.

Although the number of planes could not be ascertained, it was believed that five groups of machines took part in the raid in relays. They released a number of bombs on the western outskirts. (Central News).

**CONTINUED RESISTANCE**  
Canton, June 10. Determination to lead the Cantonese in continued resistance against the Japanese was voiced by General Yu Han-mou, Commander-in-Chief of the Fourth Route Army, and General Wu Te-ching, Chairman of the Kwantung Provincial Government, in their joint reply to Generalissimo Chiang Kai-shek's message of sympathy for the suffering of the Canton populace from Japanese air bombings. (Central News).

**APPEAL TO EUROPE**  
Hankow, June 10. Mr. Edgar Ansel Mowrer, well-known American journalist and representative of the International Peace Campaign, has sent a telegram to his headquarters at Geneva urging the various countries in Europe to take effective measures to check indiscriminate Japanese bombing of Canton, and other Chinese open towns. (Central News).

# JAPANESE PLANES ROAR OVER CANTON FOR THE THIRD NIGHT IN SUCCESSION

Canton, June 10. Japanese planes roared over Canton again tonight for the third night in succession, but no bombs have been dropped up to 9.30 p.m. It is learned that 20 bombs were dropped on Salchuen last night, six of which fell in the compound of the old waterworks, resulting in considerable damage being done to machinery, in consequence of which the city's water supply today was largely curtailed.

Another six missiles fell on the site of the new waterworks under construction.

The new power plant received a direct hit which practically demolished the entire building. The French Ambassador, M. Paul Naggar, who arrived this morning, told Reuter that he had made a tour of the city and inspected the damaged Doumer Hospital and other bombed localities.

He added that the work of the hospital would continue in a restricted capacity. (Reuter).

## BOMBS DROPPED ON FRENCH SOIL BEING EXAMINED

"Consequences Might Well Be Serious!"  
—M. Daladier

Paris, June 10. Answering a Socialist deputy's suggestion that the planes which recently raided a French frontier village were German, M. Edouard Daladier, French Premier, stated in the Chamber yesterday that there was at present no authority for saying what was the origin of the planes.

Fragments of the bombs dropped were, however, being examined by experts and the consequences of the examiners' report might well be serious, the Premier added.

M. Daladier was loudly cheered when he announced that he had ordered anti-aircraft batteries to fire on foreign planes crossing the Franco-Spanish border instead of merely firing warning shots. (Reuter).

## Former Hong Kong Professor Urges Assistance

London, June 10. There are many signs that the Japanese bombings of Canton have deeply stirred public opinion.

Lord Halifax is reported to be closely studying the indiscriminate bombings, both in China and Spain, with a view to securing restriction.

Action in this matter is the first item on the agenda of the League of Nations Union Council Meeting, which takes place here on June 15.

The News-Chronicle has published a pamphlet by Freda Utley "Japan Can Be Stopped," which stresses that Japan is dependent on foreign countries for all materials of warfare.

The Manchester Guardian urges Great Britain to organise a new and stronger declaration by all civilised countries. "It might not succeed," says the paper, "but it should be tried."

Furthermore, the British and other Governments should consider help for China by supplying anti-aircraft guns, aeroplanes or by lending money to buy them.

Professor W. C. W. Nixon, formerly of the Hong Kong University, has written lengthy letters to the Manchester Guardian quoting a report of the International Red Cross Committee for Central China and urging assistance "for the innocent Chinese peasants suffering, not thousands but millions."

Four shillings would maintain a hospital bed for a week in a refugee camp in a month. (Reuter).

## Partition Is Best And Most Hopeful Solution Of Palestine Deadlock

### REMAINS DEFINITE OPINION OF MANDATORY GOVERNMENT

London, June 10. The course of British policy in Palestine was described by the Permanent Mandates Commission of the League at Geneva by Sir John Shuckburgh, Deputy Under-Secretary of State for the Colonies.

While regarding the question of partition as subordinate in view of the presence in Palestine of a Technical Commission, Sir John replied to criticism that the British Government's policy has been lacking in definiteness.

There must necessarily be uncertainty as to the shape and form of the partition and, indeed, as to its practical adoption as a solution, until it could be known for certain that the Commission had found it possible to recommend a scheme of partition that could be regarded as equitable and practicable, he said.

But as to the question of principle there was no uncertainty or indefiniteness. The view that the partition offered in principle the best and most hopeful solution of the Palestine deadlock remained the definite opinion of the Mandatory Government. This opinion was given in their statement of policy last July.

It had been reaffirmed more recently in the House of Commons and it would accordingly be realized that there had been no modification of the policy in this respect.

Sir John Shuckburgh recalled that the Council had not pronounced itself till the middle of September, and that before this pronouncement the Mandatory Government could not proceed with examination of the possibilities of partition.

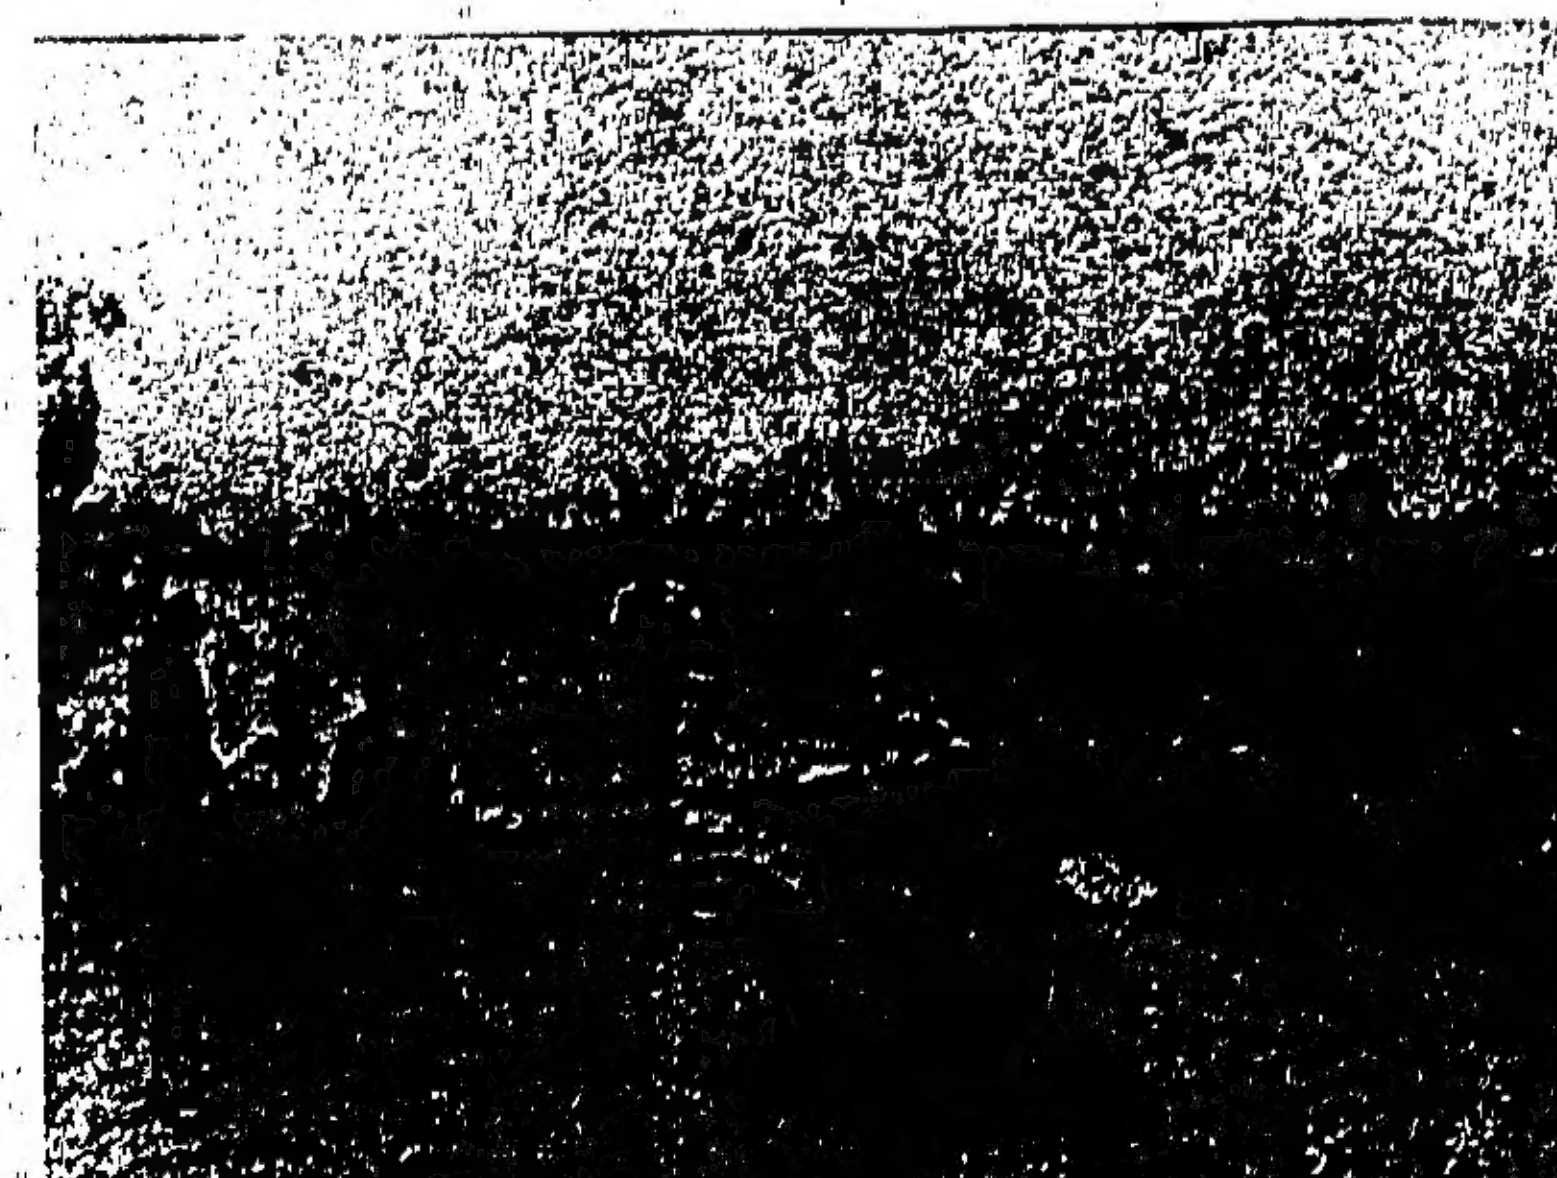

Then in the same month there be-

gan a revived campaign of terrorism culminating in the assassination of a British District Commissioner and his police escort. Firm action had been taken by the Government and the employment of all forces at their command was devoted to the task of suppressing disorder.

By the spring, though disorders had not entirely ceased, the position was sufficiently stabilized to justify the appointment of a Commission and its departure for Palestine. Meanwhile, certain inquiries essential to the work of the Commission had been set on foot.

Turning to the question of general administration, Sir John explained that the Government's principal task had been the maintenance of public security which had in the past year absorbed much of their energies and financial resources. (British Wireless).

## NEW BUILDINGS FOR BRITISH TROOPS IN SUEZ CANAL ZONE

Expenditure Will Be £12,000,000

Cairo, June 10. It is stated that negotiations are now proceeding between the Egyptian and British Government concerning new buildings required by the British garrison stationed in the Suez Canal Zone.

Papers here calculate that the carrying out of the building programme would involve an expenditure of £12,000,000. According to the papers the British military authorities require a special new garrison town to be built near Ismailia, which shall contain, besides necessary barracks, three military aerodromes, 25 munition depots, 130 tennis courts, 75 villas and a number public parks and other amenities. (Transocean).

## GUERRILLAS NEAR TIENTSIN

Hankow, June 10. Three thousand Chinese guerrillas, equipped with modern weapons, have appeared on the southern outskirts of Tientsin and are preparing to stage a surprise attack on the city, according to military information received here.

Upon receiving the report, the Japanese authorities in Tientsin have despatched a large force to challenge the Chinese troops. (Central News).

## JAPANESE PLANES RAID YELLOW RIVER BANKS

Tungwan, June 10. Five Japanese planes conducted an extensive bombardment of several points on both banks of the Yellow River near Menghsien on June 7.

An investigation made afterwards showed that apart from demolishing a number of houses, the Japanese planes caused little damage to the Chinese defence positions. (Central News).

## Londoners Plan Protest Demonstrations Against Bombing Of Canton

London, June 10. The China Campaign Committee has organised a week of protest against the bombing of Canton, beginning with a poster parade from Marble Arch to the House of Commons on June 13.

On June 14 the Committee will send a deputation to wait upon the Japanese Ambassador.

A protest meeting at Queen's Hall will be followed by a march to the Japanese Embassy on June 15.

Committee members will lobby among House of Commons members on June 16, and a demonstration in Trafalgar Square will take place on June 19. (Reuter).

## FRENCH CABINET COUNCIL

Paris, June 10. Foreign political problems, especially air raids on French and British steamers by Nationalist planes in Spanish harbours, were discussed, in addition to domestic questions, at the French Cabinet Council this morning.

Following the meeting, which lasted 2½ hours, only a brief communiqué was issued stating that the Foreign Minister, M. Bonnet, gave a very detailed expose on the present situation and that later the Premier, M. Daladier, reported on his journey to the Pyrenees region where the air raids occurred at Whitsuntide.

## 2,300 MILES BY AIR

New York, June 10. The United States expedition to New Guinea which left Wake Island by air arrived at New Guinea safely today.

This is the first time that a flight of 2,300 miles between two places has been accomplished. (Reuter Bulletin).

Finally, new social decrees were discussed which might necessitate further Cabinet meetings on Saturday, and possibly Monday.

M. Bonnet refused to make any statement when leaving the Elysee Palace. (Transocean).

## KING'S BIRTHDAY RECEPTION

The above picture was taken at the reception held at Government House on Thursday in honour of the official celebrations of the King's Birthday. In the group may be seen the Hon. Mr. Stanley H. Dodwell, Mrs. Dodwell, the Misses Dodwell, Mr. E. W. Hamilton, Dr. E. S. Begbie and Mr. K. M. A. Barnett, of the Kowloon Magistracy.

## SPORTING NEWS AND NOTES

## FINE DAY FOR THE TEST

## Bradman Fully Recovered

London, June 10. The weather at Trentbridge, where the First Test Match between England and Australia opens today, is cool with a northerly wind blowing. There are patches of blue in the sky with scudding white clouds.

The forecast, issued by the Air Ministry, is "mainly fair, average temperature."

## FINAL PRACTICE

The teams had a final muscle loosener yesterday in readiness for today's Test. Bradman, the Australian captain, had long spells at the nets and certainly appeared to have shaken off the effects of his strained back.

There is an air of grim determination in the Australian camp.

The groundsman, Widdowson, expressed the opinion that the wicket would last despite being the fastest he had ever seen.

The general opinion of the critics is that no rain will mean a win for the tourists—or a draw. If it is wet the odds will be in England's favour.—(Reuter).

## ONE NEW CASE OF CHOLERA

One new case of cholera was reported to the local health authorities during the 48 hours ended midnight Thursday.

Other diseases notified were: Small-pox, 3; diphtheria, 1; enteric fever, 3; measles, 8; chicken-pox, 2; cerebro-spinal meningitis, 3; dysentery, 9.

## New Province In Canada's Far North

As mineral exploitation of the far North pushes Canada's frontier closer to the Arctic Ocean the Dominion Government is taking an increasing interest in the problems and administration of that area, now organized as the Northwest Territories.

This vast area of more than 1,300,000 square miles stretches beyond the established provinces and is administered by a Territorial Council with headquarters in Ottawa.

Some people have been talking of the advisability of creating in the North a new Canadian province, which would be the tenth. Obviously, however, the time for such a step is still far off.

In the whole great area are only about 1,500 white people, 4,000 Indians and some 4,500 Eskimos. However it has been demonstrated that there is great natural wealth throughout the Territories, that conditions of living are not uncomfortable, and the population is likely to grow rapidly.

## HARE'S FUTURE IN TENNIS VERY UNCERTAIN

A very disappointed young Englishman sailed for New York on the Queen Mary recently, to face a business and sporting future full of doubt and uncertainty, writes a Daily Herald correspondent.

The young man was Charles Hare, English lawn tennis "hope," who made a dash from the States in order to assist Britain in the Davis Cup-tie against Yugoslavia, in Zagreb, but was recalled owing to the death of his American employer.

Hare, at a time when his tennis prospects were good, but when he had also begun to worry about a career, received an offer of a job as travelling companion to Dr. Lynch, well-known New Yorker.

From Hare's point of view the job was ideal—plenty of time for tennis in various parts of the States, an annual trip to Wimbledon, and other valuable privileges.

**May Return**  
I know that Hare rather felt he was letting the tennis people down by contracting to work in U.S.A. just when he was being looked on as one of the pillars of a new British Davis Cup team, but nobody blamed him for accepting his chance.

His mother told me that Charles has no idea what will happen now. It is quite possible that he will have to return to this country to pick up the threads here where he left them off.

But as he was far from satisfied with the monotonous round of tournament tennis, have, and the rather vague prospects held out to him, I wouldn't be a bit surprised if Hare remained in the States and carved out a new career for himself there.

From the tennis viewpoint good news only knows we could do with a young man of Hare's skill, physique and fighting qualities.

Nobody who saw it will easily forget his amazing first-set struggle with Don Budge in the Davis Cup Challenge Round, at Wimbledon, but he is dead right in looking to his future.

Meanwhile, the tennis authorities in this country continue to ponder to the chosen few and discourage promising juniors.

**GIRL WAITED SEVEN HOURS**  
I hear of a "bright girl" prospect who, at a recent tournament, was kept waiting about from before midday until seven o'clock in the evening before being put on to play in a doubles game.

As she is still at school, she made a point of going to the tournament secretary in the morning to see if the time for her match had been fixed and to see if it would be possible not to miss the whole day's schooling.

She was told that nothing had been fixed, and that she must be on hand to be called. The weather was cold. The girl spent more than seven hours sitting in a car.

She lost—and is now wondering whether lawn tennis is worth while.

## ALL BLACKS AUSTRALIAN TOUR

Three test matches against Australia will be played by the New Zealand "All Blacks" during their Australian Rugby Union tour this winter.

Two of the tests will be played at Sydney Cricket Ground, and one at Brisbane.

The New South Wales Rugby Union Council has announced the following itinerary:—  
July 16 vs. New South Wales, at Sydney.  
July 23 vs. Australia at Sydney.  
July 30 vs. Queensland, at Brisbane.

August 6 vs. Australia, at Brisbane.  
August 13 vs. Australia, at Sydney.

## JOE HULME GIVING UP SOCCER

Joe Hulme, Huddersfield Town, Blackburn, Arsenal, and England forward, who has won almost every honour in soccer, is giving up the winter game to go into business.

He has refused to re-sign for Huddersfield, and said that he intends to concentrate on cricket. "I have had 15 years of League football, and I think the time has come when I should give way to younger men."

In his 34th year, Hulme set up a record last season by making his fifth appearance in the F. A. Cup Final.

## FAMOUS ATHLETES RETIRING

C. B. Holmes, the Empire 100 and 220 yards champion, and his Salford A.C. clubmate, Bill Roberts, winner of the quarter-mile at the Empire Games in Sydney, may not be again seen on the running track.

Both are understood to have announced their impending withdrawal from competitive athletics when travelling with the English team to Australia.

Neither has arrived back in England. Holmes is returning in company with Peter Ward, the A.A.A. three miles champion, by way of America. Roberts stayed several weeks in Australia after the main party had left for England.

## A SERIOUS BLOW

Roberts is 26 years of age and Holmes three years younger. Their retirement would be a serious blow to English athletics.

Bill Roberts, a native of Salford, has had a wonderful career since running 5th in the A.A.A. quarter championship in 1934.

Since then he has never been out of the limelight. In 1935 he became A.A.A. champion and ran a 48.4 seconds quarter at the Glasgow Rangers F.C. sports, following this with a 47.7 seconds 400 metres against Germany.

Two years ago he was a member of the British team which won the Olympic 4 x 400 metres relay, and ran fourth in the final of the Olympic 400 metres. Last year he regained the A.A.A. championship, crowning this with Empire honours.

## SCHOOLS' TITLE

Cyril Butler Holmes, who belongs to Bolton, has been prominent since 1933, when he ran the Public Schools' 100 yards in 10.3 sec.

He represented Britain at the Olympic Games in 1936, and last year won the A.A.A. 100 yards title in 9.9 sec, being beaten by A. W. Sweeney in the furlong.

In Australia he reached his greatest heights with a sprint double at the Empire Games, the 100 in 9.7 sec. and the furlong in 21.2 sec.

## PHANTOM SHIPS

Circumstantial tales of a phantom ship are being told by watchmen along Northumberland Strait. Early one evening in the spring they say, what appeared to be a large passenger steamer became visible in the ice of the Strait. Lights shone brightly from her portholes and above decks, but not a sound came to the shore, nor was there any movement aboard. Then the vessel slowly and silently disappeared—and there was not a ripple in the water. That was their story.

On the mainland, in New Brunswick, the story of Prince Edward Island's phantom ship reminded some people that on several occasions credible witnesses had seen a three-masted schooner ablaze from stern to stern—learned afterwards that what they had seen was either a mirage or a phantom.

# CHINESE EMBASSY IN TOKYO CLOSING TODAY

## TEST CRICKET DESCRIBED

(Continued from Page 1)

his eye in" indulged in some sparkling off drives and square cuts and he reached his 51 after having been at the wicket for an hour. During this time he sent the ball to the ropes on eight occasions.

The wicket was appreciably fast and McCormick, the Australian speed-merchant, was "lifting" considerably and was, consequently, difficult to get away.

Barnett had another life at 51 when Bradman, fielding at deepish mid-off, dropped a ball that was going straight at him. Hutton by this time was creeping out of his shell and the crowd, now swelled to 20,000, was treated to a delightful exhibition of good batting.

The Gloucester batsman was given a round of applause when he hit O'Reilly for a boundary to send the 100 up after 85 minutes' play.

## QUICK BOUNDARIES

Encouraged by his partner's success, Hutton showed clever footwork to hit three fours in quick succession. Then he brought off a beautiful square-cut boundary to reach 50 in 100 minutes. Barnett played exhilarating cricket and was unfortunate in not getting his 100 before lunch.

When play was resumed Ward was given a spell with the ball but his first delivery was hit for a four by Barnett who thus reached his 100 after he had batted for 121 minutes.

After the 200 was signalled Bradman brought on McCormick and McCabe—with the new ball—and this pair kept the scoring down by sending down a series of maiden overs. Then Barnett played forward to what was probably the best-lengthed ball of the day (McCormick) and was bowled for 125.

England's total stood at 219 for 1—an excellent start. Barnett had batted for 175 minutes and brought off some brilliant driving and cutting, hitting 18 boundaries.

Hutton then hit a full toss to the on-boundary to reach his hundred in twice as many minutes. He thus became the ninth England player to score a century in his first Test match against Australia. Of the next ball, however, he was given out for obstruction against Fleetwood-Smith... 240 for 2.

The outgoing batsman, McCab, Barnett, was given a tremendous ovation on his return to the Pavilion.

## DULL CRICKET

Then followed a dull spell for Edrich (Middlesex) scratched about for half-an-hour for a single, this batsman being eventually bowled by O'Reilly for 5.

With the total at 244 for 3 Hammond and Paynter (Lancashire) slowly wore down the O'Reilly-Fleetwood-Smith attack, these bowlers having kept an immaculate length for some time. With the total at 274 for 3, a halt was made for tea. Hammond (20) and Paynter (7) being not out.

Hammond hit a six off Fleetwood-Smith in the opening over after the tea interval including a characteristic straight-drive for a boundary but shortly afterwards, in playing forward to O'Reilly, he misjudged the flight of the ball and was bowled for 28, the total being 281 for 4. His partnership with Paynter had realised 37 in 50 minutes.

Paynter continued to play defensive cricket with Compton as his partner.

## ENGLAND, 1ST INNINGS

I. Hutton, l.b.w. b Fleetwood-Smith	100
C. J. Barnett, b O'Reilly	126
W. J. Edrich, b O'Reilly	5
W. R. Hammond, b O'Reilly	26
E. Paynter not out	75
D. Compton not out	69

Total (for 4 wks) 422

Fall of the wickets:—1 (Barnett) for 219; 2 (Hutton) for 240; 3 (Edrich) for 274; 4 (Hammond) for 281.

## COUNTY CRICKET LUNCH SCORES

London, June 10.

Lunch scores in County Cricket championship matches were as follows:—  
Lancashire 317 v. Kent 400 and 150 for 8 at Manchester.  
Leicester 134 and 320 for 7 v. Glamorgan 182 and 11 for 6 at Ashby-de-la-Zouch.

# Foreign Ministry Statement Alleges Unlawful Molestation By Japanese

The following statement has been made by a spokesman of the Ministry of Foreign Affairs in connection with the closing of the Chinese Embassy in Tokyo tomorrow.

While engaging in her large-scale military aggression against China, Japan is still legally bound under International Law to respect and fulfil her obligation of according adequate protection and the usual privileges to Chinese consular and diplomatic missions maintained in her territory.

After the outbreak of hostilities, due to the difficulty of evacuating within a short period large numbers of Chinese residents in Japan, Chinese diplomatic and consular representatives stationed in that country endeavoured to continue, as far as possible, to fulfil their duty of protecting Chinese nationals.

In disregard of her international obligations, Japan, however, resorted to underhand methods to force the withdrawal of Chinese diplomatic and consular establishments and deprive large numbers of Chinese who were not able to leave Japan, of all protection.

Towards the end of last year Japanese gendarmes and police in Korea attempted to force Chinese consular officers to declare allegiance to the puppet regime in Peking. Similar incidents occurred in Japan and Formosa.

# JAPANESE FORCES APPEAR AT SHIHILPAO

Buildings In  
Chengchow  
Destroyed

Hankow, June 10.

Official Chinese despatches from the front state that Japanese forces appeared at east Shihilpaop, south-east of Chengchow, yesterday.

Japanese artillery shelled Chinese positions at Shihilpaop the sound of gunfire being clearly heard at Chengchow.

In accordance with the "scorched earth" policy all important buildings in Chengchow have been destroyed before the withdrawal of the main body of the Chinese forces.

In an attempt to cut the Peiping-Lunghai railway, Japanese cavalry units are stated to have raided Wuhsien east Hsuehchang, and also Changlo and Hsueh-chiao, north Hsuehchang.

Chinese despatches state that trains on the Peiping-Lunghai railway are still running to Hsuehchang but in view of the heavy troop movements north of Sinyang, passenger tickets on northbound trains are being sold only to Sinyang.—(Reuters).

# FRENCH ENVOY IN CANTON

Canton, June 10.

M. Paul Emile Naggiar, French Ambassador to China, arrived here from Hong Kong this afternoon with members of his staff.

The distinguished guest and his party were met at the wharf by Dr. Philip T'au, Special Commissioner for Foreign Affairs, and representatives of General Yu Han-mou, Commander-in-Chief of the Fourth Route Army, General Wu Te-chen, Governor of Kwangtung, and Mr. Tseng Yang-fu, Mayor of Canton.

Immediately upon landing, M. Naggiar, motored to the French Consulate at Shamenee.

The French Ambassador was the guest of honour of General Wu Te-chen at a tea party in his private residence. General Yu Han-mou, Dr. Phil T'au and many leading Canton personalities were present.

The French envoy later made an inspection of the Doumer Hospital which was hit by Japanese airmen and also the bombed areas.

M. Naggiar's stay in Canton will be brief. He will return to Hong Kong and will travel by air to Hankow.—(Central News).

# DEVALUATION RUMOURS STIR GOLD MARKET

(Continued from Page 1)

In this connection, it is significant that while the foreign exchange market is not unduly excited this morning, there is nevertheless a marked tendency on the part of the Continent to sell forward dollars against purchases of gold.

Authoritative circles in London, however, refuse to take the devaluation talk seriously, describing the rumours as "ridiculous." At the same time, they are asking the question as to what guarantee there is that commodity prices will make a lasting response to fresh devaluation when they have failed to do so previously.—(Reuters).
